Database – Cross Applications

LRN 2303	**Providence Transformation Journey Enabled by Analytics and AI [LRN2303]**	Dive into Providence's transformation toward a "Unified View of Finance, Supply Chain, and Human Capital," enabled by Oracle Fusion Data Intelligence—the cornerstone of their back-office analytics transformation. Learn how this provided them on-demand access to accurate and decision-ready information, streamlined operations, reduced administrative costs, and helped them manage risk and compliance. Discover their innovative approach to data utilization, modernization of the analytics and AI landscape, efficiency enhancement, and maximization of information comprehension and value. Plus, see how this promotes next-generation analytics and AI capabilities, utilizing enterprise-wide data to inspire insightful dialogues and decision-making.
LRN2971	**23ai—Zero Slides, Zero PowerPoint, Zero Marketing, 100% Live Demo**	Last year's 100% demo session is back again this year with a brand-new array of amazing Oracle Database 23ai features. Forget about Microsoft PowerPoint decks with dull speaker biographies, long-winded historical backgrounds, and silly memes, and get ready for a session that is 100% demo using the database tools you know and love. This is an opportunity to take your ability to build world-class applications and database management to the next level with Oracle Database 23ai.
LRN3340	**Oracle Database Roadmap—What's Next for 23ai and Beyond?**	We released Oracle Database 23ai earlier this year to great anticipation, as this was the first new long-term support release since Oracle Database 19c. Much of the feedback on the new capabilities has been positive—an encouraging nod to our converged database strategy of supporting any use case with a single engine that is underpinned by time-tested, industry-leading scalability, availability, and security. Come learn what's next on the roadmap for Oracle Database 23ai and beyond.

Recommended Sessions

- Oracle Analytics Cloud Roadmap, Strategy, and Vision (**LRN1206**)
  - Wednesday 11:00am – 11:45am
  - Gabby Rubin

- Use of Graph ML, Vector Search, RAG, and LLMs for Information Retrieval (**TUT3335**)
  - Wednesday 1:30pm -3:30pm
  - Melli Annamalai, Jayant Sharma, Sungpack Hong

- Use Data Preparation and Modeling to Improve Analytics (**LRN 1196**)
  - Thursday 11:30am – 12:15pm
  - Bret Grinslade, Luis Rivas, Greg Holland

Not-To-Miss OCW 24 Sessions: Analytics

Dan Vlamis
Director, Huron Consulting Group
President, AnDOUC

Session Details   ✕

Oracle Analytics Cloud Roadmap, Strategy, and Vision [LRN1206] ♥

With data and analytics driving virtually everything, you should know where the latest innovations in Oracle Analytics can take you. Join Oracle Analytics executives to learn how integrated AI and machine learning combine with advanced visualizations and storytelling, natural language processing and generation, smart data preparation, and Oracle data services to seamlessly enhance analytics for everyone.

Gabby Rubin, Group Vice President, Product Management, Analytics Platforms, Oracle

✓ **Scheduled**   **Wed, September 11 | 11:00 AM - 11:45 AM PDT (1:00 PM - 1:45 PM CDT)**
| Veronese 2406, The Venetian, Level 2

Unleash the True Analytical Power of AI and ML with OCI and Oracle Database [LRN1209] ♥

See how Oracle Analytics simplifies tapping into the power of the Oracle Database and Oracle Cloud Infrastructure (OCI) AI services through examples and demos. The Oracle Database has a wide variety of advanced analytics and machine learning (ML) capabilities, many of which customers haven't yet tapped into. With a direct integration into Oracle Analytics, advanced options such as AutoML can deliver immense value to business analysts and analytics users at any skill level. Learn how to utilize both AutoML and additional OCI AI Services seamlessly within Oracle Analytics—removing the complexity and flattening the learning curve for adopting these powerful tools.

Gabrielle Prichard, Product Manager, Oracle
Philippe Lions, Vice President, Product Management, Oracle Analytics, Oracle
Branden Pavol, Manager, Advanced Analytics, Worthington Steel

✓ **Scheduled**   **Wed, September 11 | 2:15 PM - 3:00 PM PDT (4:15 PM - 5:00 PM CDT)**
| Marco Polo 806, The Venetian, Level 1
